## Career Objective

---

Motivated and detail-oriented BCA student with strong programming and web development skills. Eager to apply knowledge in real-world projects, contribute to organizational success, and enhance technical expertise.

## Education

---

**Bachelor of Computer Applications (BCA)**  
Graphic Era Hill University, Haldwani – 5th Semester

2023–Present  
Current CGPA: 7.5

## Technical Skills

---

**Programming Languages:** C, C++, Java, Python, JavaScript  
**Web Development:** HTML, CSS, React.js, Node.js, PHP, MySQL  
**Tools & Platforms:** GitHub, VS Code, MS Office  
**Strengths:** Problem Solving, Time Management, Teamwork, Adaptability

## Projects

---

**Flappy Bird Clone** Browser-based game using JavaScript & Canvas  
*Tech Stack: HTML, CSS, JavaScript, Canvas*

- Developed an interactive browser game implementing game mechanics, scoring, and collision detection.
- Added sound effects, restart functionality, and score tracking for enhanced engagement.

**Library Management System** Web Application  
*Tech Stack: HTML, CSS, JavaScript, Bootstrap, MySQL, PHP*

- Managed books, students, and records using CRUD operations and database integration.
- Developed secure user authentication and role-based access control.

**Quizzes Website** Online Platform  
*Tech Stack: HTML, CSS, JavaScript, Bootstrap, Flask, MongoDB, API*

- Built an online quiz platform for hosting dynamic quizzes with user authentication.
- Designed responsive frontend with admin and student role-based functionalities.

**Student Management System** Web Application  
*Tech Stack: HTML, CSS, JavaScript, Bootstrap, Flask, SQLite*

- Integrated CRUD operations for managing courses, marks, and student details.
- Implemented secure login, authentication, and dashboard analytics for admin users.

## Internship

---

**Aditya Birla Group – Web Development Intern** 1 Month

- Contributed to web applications and front-end development.
- Learned practical skills through real-world projects.

## Certifications

---

- **Python Programming Certification** *Coursera, 2025*  
Completed comprehensive Python programming course covering OOP, data structures, and problem-solving.
- **Web Development Certification** *Mind Luster, 2024*  
Gained hands-on experience in full-stack web development.
